—. Installation requirements:

- 1. The APEX printer.
- 2. Bluetooth module.
- 3. Phillips screwdriver.
- 4. The printer must be turned off, power and cable for installation

\square . Installation operation:

1. Remove the bottom middle screw.

Note: (Remove only the middle screws)

į

Gainscha

2.Locate the screw hole for the Bluetooth mod

3.Take out the Bluetooth module and calibrate the position of the four screw holes. (Note: front and back of Bluetooth module) and install four screws as shown below:

4. Connect the line as shown in the figure below

Note: (Blue line connects No.1 interface, black and white line connects no. 2 interface) 5. Install the motherboard shell of the machine, and install from behind the motherboard shell.Note: (Do not press any line when installing the motherboard housing) as shown below:
